SUMMARY

Odoo Developer with 3+ years of experience in custom module development, workflow automation, and ERP integration. Skilled in Python, the Odoo framework, and creating custom PDF & XLSX reports, with experience delivering enterprise solutions.

WORK EXPERIENCE

NexBridge Technologies Inc. **September 2022 - Present**
Senior Software Engineer (Odoo) Hybrid

- Developed and customized modules from scratch, including SMS systems, CMS, ledger tracking, and reporting solutions.
- Improved an eCommerce website by reducing unnecessary database queries and front-end requests, helping reduce page load time from ~12s to 4–6s.
- Introduced a team-wide Odoo development workflow that automated service restarts, database targeting, and module upgrades with a single action, replacing most of the manual steps previously used by developers and significantly speeding up debugging.
- Designed a data migration solution from SAP ECC6 to Odoo using JSON/gzip for efficient data transfer.
- Delivered projects including eCommerce optimization and fully customized SMS systems for university admissions and grading workflows.
- Trained internal developers from other teams and mentored OJTs and new hires, sharing Odoo best practices and enhancing team-wide development efficiency.

SKILLS

- **Odoo / ERP:** Custom modules, ORM, XML views, workflow automation, creating PDF & XLSX reports
- **Programming:** Python (Odoo ORM, general Python)
- **Database:** PostgreSQL
- **Tools / Version Control:** Git, VSCode
- **Other:** Excel, JSON, gzip, webhook integration

EDUCATION

Bachelor of Science in Information Technology (BSIT) Major in Web and Software Development
Bulacan State University 2018–2022

Senior High School Science, Technology, Engineering, and Mathematics (STEM)
Academia De Pulilan 2016–2018
